Subsahara-Afrika

Nr. 23/2024

SWP-Informationsservices

Jürgen Rogalski, 12.04.2024

Der SWP-WebMonitor Subsahara-Afrika ist ein unentgeltliches, kompaktes Informationsprodukt mit ausgewählten Hinweisen auf aktuelle Stellungnahmen, Dokumente und Analysen zu allen (außen-) politisch relevanten Fragen und Entwicklungen der Region. Bei allen Titeln gibt es einen Link, meistens direkt zum Volltext. Grundlage der Erstellung ist ein überwiegend festgelegtes Set an Quellen: Webseiten, Blogs, Zeitschriften etc. Der Auswahl-Fokus liegt neben Dokumenten auf wissenschaftlichen bzw. wissenschaftlich basierten Beiträgen. Neben Titeln mit konkretem Länder- bzw. Regionalbezug werden auch solche berücksichtigt, deren Thematik relevant ist für die Region. Der WebMonitor wird i.d.R. ein- bis zweimal wöchentlich erstellt, nicht aber bei Abwesenheit des Bearbeiters.

How ad hoc coalitions deinstitutionalize international institutions

Malte Brosig, John Karlsrud

"As ad hoc coalitions (AHCs) proliferate, particularly on the African continent, two questions crystallize. First, what consequences do they bring about for the existing institutional security landscape? And second, how can the trend of AHCs operating alongside instead of inside international organizations be captured and explored conceptually? To answer these questions, we closely examine the Multinational Joint Task Force (MNJTF) fighting Boko Haram and its changing relationship to the African Union. ..."
