Subsahara-Afrika

Nr. 43/2024

SWP-Informationsservices

Jürgen Rogalski, 12.07.2024

Der SWP-WebMonitor Subsahara-Afrika ist ein unentgeltliches, kompaktes Informationsprodukt mit ausgewählten Hinweisen auf aktuelle Stellungnahmen, Dokumente und Analysen zu allen (außen-) politisch relevanten Fragen und Entwicklungen der Region. Bei allen Titeln gibt es einen Link, meistens direkt zum Volltext. Grundlage der Erstellung ist ein überwiegend festgelegtes Set an Quellen: Webseiten, Blogs, Zeitschriften etc. Der Auswahl-Fokus liegt neben Dokumenten auf wissenschaftlichen bzw. wissenschaftlich basierten Beiträgen. Neben Titeln mit konkretem Länder- bzw. Regionalbezug werden auch solche berücksichtigt, deren Thematik relevant ist für die Region. Der WebMonitor wird i.d.R. ein- bis zweimal wöchentlich erstellt, nicht aber bei Abwesenheit des Bearbeiters.

The rise of Mali's 'videomen' as cybercombatants in global crisis ecologies

Signe Marie Cold-Ravnkilde, Almamy Sylla

"... examines the geopolitical shifts in Mali following its rejection of western intervention and subsequent partnerships with Russia. Mali is used as a case-study to explore the role of digital connectivity within global crisis ecologies. It challenges the narrative attributing Mali's coup solely to external influences, emphasizing the agency of local actors and new digital practices. Focusing on the role of 'videomen' in disseminating the narratives of Yèrèwolo, Mali's foremost anti-French and pro-Russian political movement, it examines how these actors shape public perceptions of Mali's new military leaders and their international partners. ..."
